

LV JUICE

Easy & Secure Connection System for Aluminium Flex Cables

**EASY
INSTALLATION**

**COMPACT
DESIGN**

TE Connectivity's BSMB-FL and BLMT-FLEX mechanical connectors and lugs are designed for use with flexible Aluminium cables in low voltage applications up to 1 kV, and consist of high tensile Aluminium tin-plated body, shear-head bolts and inserts for small conductor sizes. Lugs are suitable for outdoor and indoor applications and are available with different palm hole sizes.

Shear Bolt Technology

Made of a special Aluminium alloy, these contact bolts are double shear-head with hexagon heads. The bolts are treated with a highly lubricating agent. Contact bolts are irremovable once their heads have been sheared off.

FEATURES AND BENEFITS

- Torque-controlled shear-head bolts guarantee a good electrical contact
- Easy installation with standard socket spanner
- Wide application range from 25mm² to 500mm²
- Can be used with Aluminium flexible cable (class 5)
- Compact design and wide application range
- Tested according to IEC 61238-1 class B

APPLICATIONS

- Underground solutions
- Substations
- Wind energy solutions

AUTHORISED DISTRIBUTOR

Smart[®] Band

- ✔ Safer
- ✔ No Sharp Edges
- ✔ Non-Conductive
- ✔ Easier to Install

No matter what your application(s) – if you currently use stainless steel strap, you will be able to use Smart[®] Band as a replacement.

SMART[®] BAND STANDARD

SMART[®] BAND FLEX

FEATURES

- No sharp edges
- Non-metallic, non-conductive
- Use wherever you'd normally use stainless strapping
- Strengthened with glass fibre strands
- Available in 12.7mm & 19mm
- Glass Fibre Strands within band provide superior strength and retention

Fixing, Fastening & Support Products

Since 1956, contractors, engineers, designers and distributors have relied on the premium quality and ease of use of nVent CADDY products. Our innovative and complete range of solutions are designed for applications including electrical, mechanical, datacom, plumbing, HVAC, fire sprinkler and more.

SOLUTIONS

nVent Caddy products are designed to be safe, easy to use and fast to install.

ENGINEERING

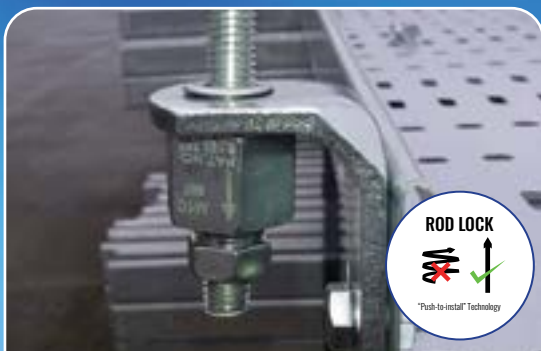

nVent Caddy engineers have designed a full-system solution.

QUALITY

All nVent CADDY products undergo extensive development, testing and certification processes.

POPULAR PRODUCTS INCLUDE:

MPFBAGS-MIX2KG	Rags Mixed Cotton Compressed 2kg
MPFBAGS-MIX10KG	Rags Mixed Cotton Compressed 10kg

All Specials and Products featured in TRANSNET JUICE are available from all good electrical wholesalers.

Fully Sealed LV & ELV Electrical Connections

KEY FEATURES

- Quick, easy and clean installation
- Reliable water protection IP X8
- Loop-in/loop-out or branching kits available
- Boxes can be re-opened for easy maintenance
- Halogen-free and UV-resistant
- Compact design with wide application range for 6 mm² to 70mm² main cables
- Unlimited shelf-life, environmentally friendly, no labelling requirements
- Safe and easy installation - avoids tape and potential exposed live terminals
- Revolutionary PowerGel – Provides quick and easy installation and an excellent moisture seal over a wide temperature range

The TransNet LV Contractor Series range includes both lugs and links for use on Low Voltage (LV) connections. These connectors are range taking which helps to minimise the inventory required to cover the majority of LV connections and terminations in NZ.

Made from high strength, tin plated Aluminium alloy, these connectors are made to the highest international standards and offer excellent reliable connections for LV installations up to 1kV.
