Flame Retardant Heatshrink – FCSM

APPLICATIONS

- Electrical insulation & mechanical protection
- Flexible applications
- Indoor or outdoor busbar insulation
- Harsh environments

FEATURES

- Heavy Wall Tubing
- Flexible
- Corrosion protection
- Insulation up to 1kV
- Operating temperature range -40°C to 120°C
- Shrink ratio 3:1
- Flame retardant
- Self extinguishing
- UV stable

TN855 - PHASE ROTATION METER

The TN855 Phase Rotation Meter comes with fused leads to offer overload protection to line workers who test on overhead LV lines. The leads are supplied at lengths conducive to allowing the unit to be connected across overhead LV lines when making the test. The double insulated leads are connected to shrouded probes with removable crocodile clips which are included.

Easy to operate, simply connect the coloured leads to the appropriate phase, tester will automatically advise rotation of phases, always be sure to check phases before and after work is completed to ensure rotation remains constant.

This unit is supplied in a soft vinyl case with the colour coded crocodile clips, leads and an instruction manual.

KEY FEATURES

- CAT IV, 600V
- Heavy duty fused leads with HRC fuses
- Input Voltage 200-600V AC
- Frequency 50-60Hz
- 3x5amp HRC fuses
- Lightweight
- Push button activation

DIMENSIONS

- Size = 134mm x 85mm x 45mm
- Weight = 530g (with test leads)

DIN FUSE LINKS - BY TE CONNECTIVITY

Top Quality, IEC approved LV Fuse Links by TE Connectivity – Every Connection Counts!

FUSE LINK NH DIN TYPE

FEATURES

- Rated Voltage: 690V AC
- Rated breaking capacity: 120kA
- Class: gG/gL
- Huge range in stock
- Solid blade links also available
- Standard specifications: IEC EN 60269-2-1

All Specials and Products featured in TRANSNET JUICE are available from all good electrical wholesalers.

www.transnet.co.nz

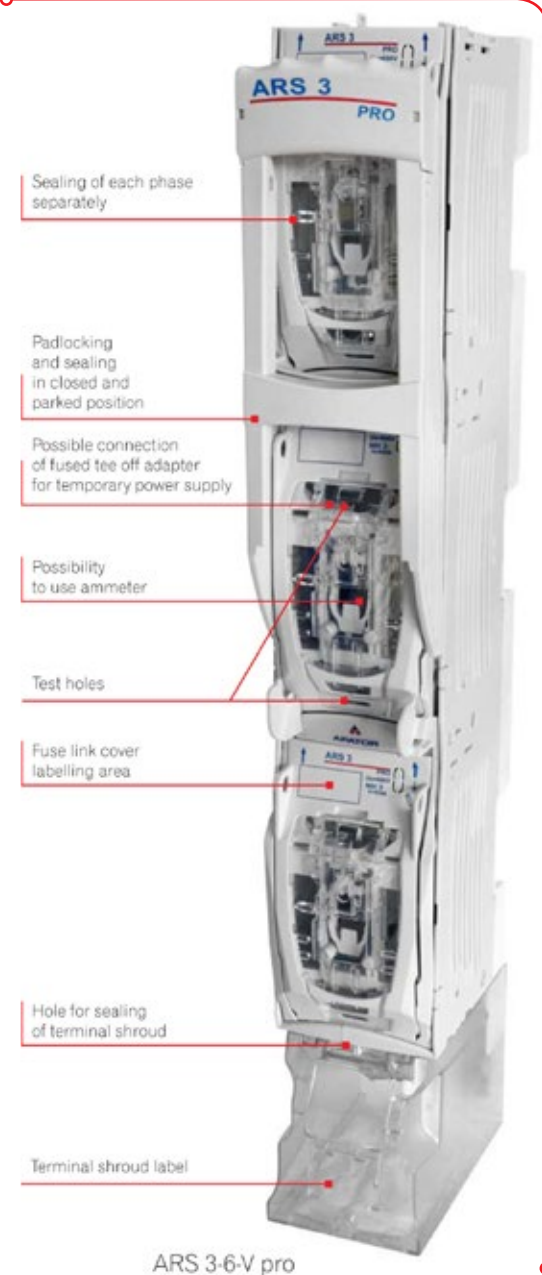

You asked – We Delivered!

We've been searching the globe for the ultimate switchgear and here it is. TransNet is proud to announce the addition of Apator products to our selection of high quality products. The new Pro series of RBK switch disconnectors is designed for the distribution of electricity and protection of electrical equipment against short-circuits and overloads with industrial fuse links, & is suitable for installation in low voltage distribution boards, cable and metering cabinets.

NEW!

FUNCTIONALITY

- Voltage testing is performed through test holes in the fuse link cover
- Fuse link status monitoring ability
- Conforms to EN 60947-1, EN 60947-3, IEC 60947-1, and IEC 60947-3 standards

Sealing of each phase separately

Padlocking and sealing in closed and parked position

Possible connection of fused tee off adapter for temporary power supply

Possibility to use ammeter

Test holes

Fuse link cover labelling area

Hole for sealing of terminal shroud

Terminal shroud label

ARS 3-6-V pro

HIGH QUALITY MATERIALS

- Thermoplastic parts made of fibre glass strengthened polyamide with halogen-free flame retardant added and with the highest possible flammability class -V0
- Three pole main base with spring-loaded contacts designed for connection of circular or sector-shaped conductors
- Conductors with lug terminals or bars
- Removable cover with fuse links
- Arc chutes with steel deionization plates over top contacts
- Silver plated contacts provide low power loss

Available in Vertical & Horizontal models for Din NH fuse links sizes 00-3.

MOUNTING

- On mounting plate
 - RBK 00 Pro
 - RBK 1 Pro
 - RBK 2 Pro
 - RBK 3
- On double DIN rail
 - RBK 00 Pro

APATOR

CONDUIT CUTTERS

CC32 FEATURES

- High quality construction
- Suitable for cutting PVC conduit and duct
- Supplied with a flat bed attachment for cutting duct
- Range: Up to 32mm OD.
- Length: 195mm
- Weight: 320g

Product # CC32

\$29.90
+ GST

CC42 FEATURES

- High quality construction
- Suitable for cutting PVC conduit and duct
- Stainless steel cutting blade
- Range: Up to 42mm OD.
- Length: 215mm
- Weight: 360g

Product # CC42

METREL MI3102 EUROTTEST XE INSTALLATION TESTER

The MI3102 EurotestXE is the ideal instrument for engineers who perform high volume installation safety testing. Performing all the necessary tests for installation testing,

EurotestXE is equipped with integrated characteristics of fuses and RCDs for PASS/FAIL evaluation of test results. All the results can be quickly saved and referenced on the instrument and then downloaded via the EuroLink PRO software, included in the standard set, to the computer for evaluation and report generation after testing. MI3102 EurotestXE performs continuity, insulation, RCD, loop, line, voltage, frequency, earth resistance testing and phase sequence tests.

FEATURES

- Built-in memory for storing up to 500 measurements
- Field-proven Earth resistance measuring method eliminates stray earth currents during measurements
- Fast and reliable loop resistance measurement without RCD tripping
- Built in fuse characteristics database for quick evaluation of measuring results at ZLINE measurements
- Online voltage monitor shows voltage levels for L-L, L-N and L-PE during the measurement
- TN/TT/IT Multi system support
- Multifunctional tip commander for faster execution of a measuring sequence
- Rechargeable battery pack with charger included
- EuroLink XE PC software CD included

TESTING FUNCTIONS

- DC Insulation Resistance
- PE Conductor continuity test
- Line and Loop resistances with fuse evaluation table built in
- RCD test with triplock function
- Phase sequence in 3-phase systems
- 3 wire Earth resistance test with built in battery operated generator
- Light meter feature with optional LUX meter probe
- Online voltage monitor
- Leakage current test

LEDPNL - ECOLIGHT PANEL LIGHTS

ECOLight recessed LED ceiling panels are light weight, high powered, energy efficient and dimmable. They have up to 50% energy saving when compared to fluorescents. Ultra slimline (11.5mm) and extremely robust, these panels are virtually maintenance free and fit into even the tightest of ceiling cavities.

FEATURES

- Up to 50% energy savings compared with fluorescents
- Ultra slimline to fit into the tightest ceiling cavities
- Extremely robust and virtually maintenance free
- Dimming functionality
- Easy installation into false ceilings
- UV free

LED PANEL LIGHTS

CEILING MOUNTING STYLE

RECESSED MOUNTING STYLE

MODELS AVAILABLE:

- LEDPNL-3X12-42-CW (Cool White)
 - LEDPNL-3X12-42-PW (Pure White)
 - LEDPNL-6X6-42-CW (Cool White)
 - LEDPNL-6X6-42-PW (Pure White)
 - LEDPNL-3X12-83-CW (Cool White)
 - LEDPNL-3X12-83-PW (Pure White)
- *Natural White (4000K) coming soon

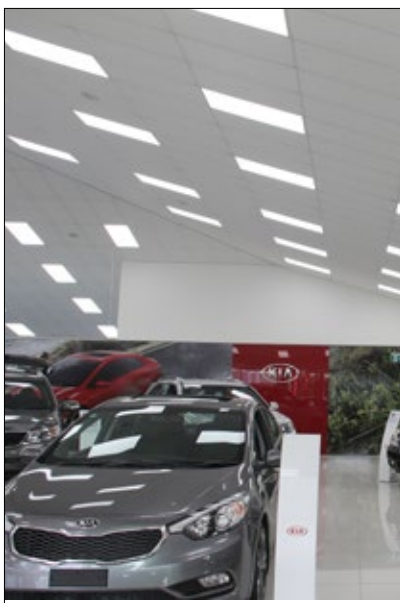

ACCESSORIES AVAILABLE:

- Surface mount frames
- Wall knob dimming kit
- Recessed mount protection wire
- Ceiling mount suspension wire
- Wall knob dimmer with remote

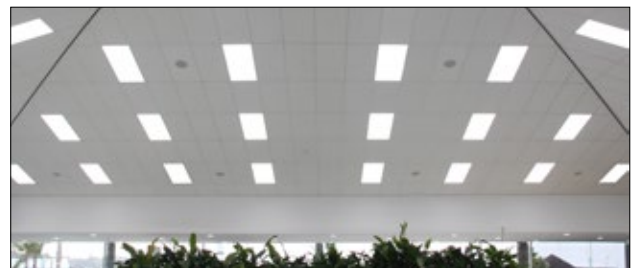

INDEPENDENT CEILING
AND WALL MOUNTING FRAME

Panels can be recessed, surface mounted, wall mounted or suspended.

IDEAL FOR:

- Education & medical environments
- Transport hubs
- Offices and retail
- Technical production areas requiring high levels of brightness

All Specials and Products featured in TRANSNET JUICE are available from all good electrical wholesalers.

HAUPA RATCHET SCREWDRIVER SET

51 piece S2 ratchet screwdriver set with right/left hand motion and adjustable operating angle of 180°.

KIT CONTENTS:

- 2 Adapters: 1/4" 50 mm, 1/4" 80 mm
- 8 sockets: 5, 5.5, 6, 7, 8, 10, 12, 13
- 1 Flex ratcheting driver
- 1/4" 50 mm Power bits (reduced shank except T40, H6, flat: 6, 7, 8)
 - Tx-S: T7-10, T15, T20, T25, T30, T40
 - Hex (hole): H2, H2.5, H3, H4, H5, H6
 - PH, PZ & Robertson: 0, 1, 2, 3
 - Tx: T5, T6
 - Slot: 3, 4, 5, 6, 7, 8
 - Tri-Wing: 1, 2, 3
 - PZ/FL 1 & 2

HAUPA 1000V RATED CUTTER & PLIER KIT

This 1000V rated cutter and plier kit is manufactured from High Alloyed Carbon Steel and oil-hardened to ensure top performance. It features induction hardened cutting edges, a comfortable handle grip, and complies with IEC 60900:2004. These tools make the perfect addition to any tool kit.

Product # 220127

\$193.78
+ GST

KIT CONTENTS:

- Combination Pliers
- Long Nose Pliers
- Side Cutters
- Wire Stripping Pliers

haupa[®]

HAUPA 2-COMPONENT PLIER KIT

This kit features chrome plated tools with 2-component, reinforced handles made of high quality, non-slip, thermoplastic elastomer. The cutting edges have been inductive hardened and the handles are slimline and slip-resistant for easy handling, making them easy and efficient to use.

Product # 220129

\$140.38
+ GST

KIT CONTENTS:

- Combination pliers 180 mm
- Heavy duty diagonal cutter 180 mm
- Long chain nose pliers 200 mm
- Wire stripping pliers 160 mm

NZ Oil & Gas Exhibition & Conference – New Plymouth, OCT 22-23

TransNet is excited to be part of the upcoming Oil & Gas Expo at the TSB Stadium in New Plymouth. As the industry's premier trade event of the year it will offer an unparalleled experience for visitors, letting them engage with experts from top companies and observe leading advances in every sector of exploration and production.

In addition, the 2014 conference will explore relevant issues surrounding new technologies, industry best practice, regulatory frameworks, and how to approach current and future developments. If you are involved in the oil and gas industry in any capacity this is an event that can't be missed.

The TransNet stand at #38 and #39 will feature a range of hazardous area and safety products, including Heatshrink products, oil rig components, glands and enclosures, protective clothing, and floodlights, from trusted brands such as TE Energy, Raychem, CCG, Salisbury, and ECOlight.

Come visit us, say hello to our staff and find out more about the contribution our products can make to the oil and gas industry in New Zealand.

22 & 23 October 2014

10am to 5pm

TSB Stadium, New Plymouth

TransNet Stand #38 & #39

Free entry for registered trade visitors
